Meet some of our favorite elements from LEGO® Education SPIKE™ Essential. Students' creativity will flourish as they bring their STEAM creations to life.

**16x16 White Baseplate**
A “blank canvas” ready for students’ creative ideas, models and imaginations.

**Bridge Pin**
Connects creative, system-brick builds to hardware and LEGO® Technic™ elements.

**Stackable LEGO Bricks**
Stackable for easy building and accessible hands-on learning.

**Bridge Pin**
Connects creative, system-brick builds to hardware and LEGO® Technic™ elements.

**Minifigures**
Diverse identities and characteristics make STEAM learning relatable.

**LEGO® Technic™ Small Hub**
Create engaging, interactive models by connecting the Hub to motors, sensors, other LEGO elements and Bluetooth.

**Small Wheel**
Features increased maneuverability and is a perfect fit to the small motor.

**LEGO® Technic™ 3x3 Color Light Matrix**
Individually program the nine pixels to create patterns and animations in 10 colors.

**LEGO® Technic™ Small Angular Motor**
The compact design profile and integrated rotation sensor with absolute positioning bring LEGO builds to life.

**LEGO® Technic™ Color Sensor**
Detects colors and allows creations to react to their environments.

**Accessories**
Accessories and decorative elements add a fun and quirky twist to students’ stories.

**LEGO® Technic™ Small Hub**
Create engaging, interactive models by connecting the Hub to motors, sensors, other LEGO elements and Bluetooth.
