

Implementation of LEGO® Education Solutions

Establish a Vision for Implementation

- Clarify the goals for your implementation
- Establish the strategy and logistics of your implementation

Build a Timeline and an Implementation Team

- Plan for curricular alignment
- Plan for IT support
- Plan for procurement
- Establish teacher leaders and influencers
- Onboard school and district leadership stakeholders
- Establish timelines

Procure, Organize, and Distribute Materials

- Prepare to receive materials
- Create organizational systems for materials
- Unbox and sort

Activate Hubs

- For SPIKE™ Essential or SPIKE™ Prime, open the SPIKE™ App on a laptop or a desktop
- Use the included USB cable to connect the hub to the device
- Follow the prompts to update the hub
- After the update is complete, name the hub according to the convention determined (probably the bin number)
- To turn off the SPIKE hub, hold the large button down for several seconds until all the lights go off

Initiate and Support Professional Learning and Implementation

- Roll out curricular program, goals, and support to teachers
- Engage teachers in professional development
- Prepare instructional leaders to support implementation
- Support Teachers: First 30 Days
- On-going support (who and how)

Examine Outcomes, Best Practices, and Needs

- Collect and analyze feedback and data on implementation
- Revisit curricular alignment

Celebrate Success and Provide Support

- Share best practices and support ongoing learning
- Share stories of impact
