## Pinwheel

### Performance and Learning Targets Linked to the Activity and the Eight Next Generation Science Practices

Observe the suggested student behaviors while working with the activity. Either use the suggested Emerging (E), Developing (D), Proficient (P), Accomplished (A) proficiency level descriptions or use one relevant to your context.

### Student Performance Targets Linked to the Activity

To what degree can the student...

<table>
<thead>
<tr>
<th>Performance Target</th>
<th>Name(s):</th>
</tr>
</thead>
</table>

- Adequately build the pinwheel model with help or independently using the building instructions (1, 2, 3, 6)
- Use the model to demonstrate understanding of terms and make predictions about force and motion (1, 3, 5)
- Meet or exceed expectations in the design of the pinwheel based on directions of activity (E.g. Wings are bent at same angle. Wings spin freely) (2)
- Make changes or create a new model design in order to create a more advanced model based on tests and data (2, 3, 4, 6)
- Use pinwheel worksheets to record and analyze data collected from the model investigation (3, 4, 5)

### Selected Student Learning Targets Linked to the Practices

To what degree can the student...

<table>
<thead>
<tr>
<th>Learning Target</th>
<th>Name(s):</th>
</tr>
</thead>
</table>

- Ask simple to advanced questions based upon observations to make predictions (1, 3)
- Demonstrate ability to use fair testing of models and make adjustments based upon data (3, 4, 6)
- Communicate the meaning of the findings with others (E.g. orally, in drawing or writing) (4, 8)
- Follow a plan to define, carry out, test, evaluate and share a design task (2, 3, 4, 5, 6, 7, 8)
- Compare solutions with other groups and listen to the ideas of others (6, 7, 8)

### Optional Student Learning Targets

<table>
<thead>
<tr>
<th>Name(s):</th>
</tr>
</thead>
</table>

### Lesson Observational Notes:
